RED SOUR CHERRIES

The fulfillment of requirements for the defense of the United States will result in a shortage in the supply of red sour cherries for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§1405.46 *Purchase and processing of red sour cherries restricted*—(a) *Definitions.* (1) "Red sour cherries" means red sour cherries, pitted or unpitted, produced in the State of New York during the year 1944.

(2) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(3) "Director" means the Director of Distribution, War Food Administration.

(4) "Cold storage" means space, either in or outside of the State of New York, equipped to be artificially cooled to a temperature of 10° F. or below, and in which food commodities are customarily stored (but not operated as a part of an established retail food business, hotel, or other establishment where persons are housed or fed, and not including a refrigerator storage compartment, usually called a locker, having a capacity of not more than 15 cubic feet).

(5) "Order Administrator" means the person designated by the Director to serve as Order Administrator pursuant to the provisions hereof.

(6) "Deputy Order Administrator" means the person designated by the Director to serve as Deputy Order Administrator pursuant to the provisions hereof.

(b) *Restrictions.* (1) The quantity of red sour cherries placed in cold storage by any person during the year 1944 shall not be in excess of 60 percent of the quantity of red sour cherries which the respective person placed in cold storage during the year 1942.

(2) The Director may authorize any person to place red sour cherries in cold storage in addition to the quantity which the respective person is permitted to place in cold storage pursuant to the provisions of (b) (1) hereof if (i) adequate canning facilities are not available for use by such person; (ii) no suitable market exists in the canning industry for such red sour cherries; or (iii) for any other reason the Director concludes that it is necessary to grant the aforesaid authorization in order to effectuate the purpose of this order.

(2) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

The Director may, after said review, take such action as he deems appropriate, and such action shall be final. The provisions of this paragraph (f) shall not be construed to deprive the Director of authority to consider originally any petition for relief from hardship submitted in accordance herewith. The Director may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(g) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using the material subject to priority or allocation control pursuant to this order. Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 59 Stat. 176; E.O. 8024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3693; P.R. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-579]

PRATT FOOD COMPANY

Pratt Food Company, 52 State Street, Hammond, Indiana, is a branch of Pratt Food Company, a corporation organized under the laws of the State of Pennsylvania. It is engaged in the manufacture and sale of animal and poultry

feeds, in which molasses is customarily used as an ingredient. During the calendar year 1943 and the first calendar quarter of 1944 the respondent accepted delivery of approximately 920,016 pounds of molasses in excess of its permitted quota, and used approximately 743,282 pounds of molasses in excess of its permitted consumption, in violation of the provisions of General Conservation Order M-54. The Pratt Food Company was familiar with the provisions of General Conservation Order M-54, and its actions constituted a wilful violation of that Order.

These violations have hampered and impeded the war effort of the United States by diverting a scarce material to uses unauthorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.579 *Suspension Order No. S-579.* (a) During the four successive calendar quarters beginning July 1, 1944, and ending July 1, 1945, the Pratt Food Company, its successors or assigns, shall not accept delivery of or use any molasses in an amount exceeding 80% of its quota as specified by General Conservation Order M-54, unless otherwise authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Pratt Food Company, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 13, 1944, and it shall expire on July 1, 1945.

Issued this 13th day of July 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-532]

JOSEPHINE B. MARTIN (MRS. WILLIAM T. MARTIN)

Josephine B. Martin (Mrs. William T. Martin) of Marblehead, Massachusetts, in June, 1943, began and thereafter continued construction, consisting of remodeling a residence, at 160 Atlantic Avenue, Marblehead, without authorization from the War Production Board, at an estimated cost of \$3,500, which amount exceeded the limit of \$200 permitted by Conservation Order L-41. Josephine B. Martin was aware of War Production Board restrictions on construction, and doing this construction without authorization constituted a wilful violation of Conservation Order L-41. Josephine B. Martin also wilfully furnished false and misleading information to the War Production Board in an application for approval of this residential construction, dated October 25, 1943.

This violation of Conservation Order L-41 has diverted critical materials to uses not authorized by the War Produc-

tion Board and has hampered and impeded the war effort of the United States of America. In view of the foregoing, it is hereby ordered, that:

§ 1010.582 *Suspension Order S-582.* (a) Neither Josephine B. Martin (Mrs. William T. Martin), her successors or assigns, nor any other person, shall do any construction on the premises at 160 Atlantic Avenue, Marblehead, Massachusetts, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Josephine B. Martin (Mrs. William T. Martin) her successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the 13th day of July 1944.

Issued this 13th day of July 1944.

[Priorities Reg. 3, Direction 9]

TEXTILE MACHINERY ACCESSORIES—FIBER
BLOCKS, BOBBINS, CONES, COPS, CORES,
PIRNS, QUILLS, SPOOLS AND TUBES

The following direction is issued pursuant to Priorities Regulation 3:

(a) *Purpose.* This direction provides an exception to the provisions of List B of Priorities Regulation No. 3 which prohibits the use of blanket MRO ratings to obtain paper and paperboard and products manufactured therefrom. By the terms of this direction, blanket MRO ratings may be used to obtain certain fiber products used as textile machinery accessories.

(b) *Use of MRO ratings.* Any person may use the blanket MRO ratings assigned to him by any regulation or order of the War Production Board to get the following textile machinery accessories (with or without metal ends or inserts) to be used as operating supplies: Fiber Blocks, Bobbins, Cones, Cops, Cores, Pirns, Quills, Spools and Tubes.

(c) *No extension of ratings.* Ratings applied to get the textile machinery accessories listed above may not be extended to obtain materials for use in their manufacture.

Issued this 14th day of July 1944.

PART 1029—FARM MACHINERY

[Limitation Order L-257, as Amended July 14, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of critical ma-

terials entering into the manufacture of farm machinery and equipment and repair parts therefor, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1029.15 *Limitation Order L-257—*
(a) *What this order does.* This order describes the rules governing the manufacture of farm machinery and equipment and repair parts for sale in the continental United States and possessions. (Manufacture for export is covered by Order L-257-a.) To aid manufacturers in planning a continuous production cycle, it is the intention that this will be the basic order from year to year. However, it is expected that a new schedule of quota percentages will be issued as a part of the order each year for the "current quota period" starting July 1 of that year, and this will become the "applicable schedule" for that period. For example, the applicable schedule for the period July 1, 1943 to June 30, 1944, is Schedule A; for the following twelve-month period starting July 1, 1944, the new applicable schedule might be called Schedule B, etc. In order that producers may plan their production and order materials in advance, they may assume that the schedule in effect at any particular time will continue into the next "current quota period", until such time as a new schedule is issued. There is no quota limitation on repair parts or attachments:

In addition to quota and other limitations on manufacture, this order also has rules on the filing and approval of production schedules, covering machinery and equipment (both farm and non-farm) and repair parts. Producers affected must stick to their schedules, with certain exceptions, so that the various programs, both farm and non-farm, can be met on time.

(b) *Definitions.* For the purpose of this order (and any orders supplementary hereto, unless otherwise indicated):

(1) "Producer" means any person, other than a supplier, engaged in the manufacture (in the United States) of farm machinery and equipment or of attachments or repair parts for farm machinery and equipment.

(2) "Small producer" means any producer whose total net sales (including exports and sales by affiliates) of all products did not exceed \$100,000 during the calendar year 1941; and includes any other producer who has been classified by the Smaller War Plants Corporation as a "smaller, distressed producer" and is specifically designated as such for the purpose of this order by the War Production Board, on such terms and conditions as may be proper.

(3) "Manufacture" means to put into process, machine, fabricate, or otherwise alter materials by physical or chemical means.

(4) "Supplier" means any person engaged in the manufacture (for sale to a producer in the United States) of materials, parts, assemblies or subassemblies to be physically incorporated into farm machinery and equipment or repair parts

manufactured by such producer, or to be resold by such producer as repair parts.

(5) "Machinery and equipment" means agricultural machinery, mechanical equipment and implements (including all attachments used in conjunction therewith) of the types ordinarily manufactured for farm use, and listed on the applicable schedule attached hereto.

(6) "Farm use" means use for the production or care of crops, livestock, live-stock products, or other produce on a farm (or elsewhere in the case of poultry). The term also includes use for the production or care of crops in "victory gardens" with respect to atomizing hand sprayers, hand dusters, wheel-type hand cultivators and wheel-type hand plows, and use for any civilian purpose with respect to horseshoes, muleshoes, oxen-shoes and harness hardware.

(7) "Farm machinery and equipment" means machinery and equipment which is manufactured specifically for farm use, including irrigation and drainage equipment (excluding tile), horseshoes, muleshoes, oxen-shoes, harness hardware, and water well casing (fabricated by other than pipe mills); but excluding repair parts, and also excluding all of the following: tracklaying type tractors, fencing, poultry netting and wire, wire fencing, bale ties or straps, oil well casing and water pipe, grain bins and corn cribs, water storage tanks, nails (all kinds), and sundry hardware (including hand tools, chains, barn door track, pulleys, scales, and similar items not specified on the applicable schedule).

(8) "Non-farm machinery and equipment" means machinery and equipment, as defined in paragraph (b) (5) above, which is manufactured pursuant to rated orders for any purpose other than farm use.

(9) "Attachment" for machinery and equipment means a supplementary appliance which may be added to an otherwise complete machine to extend the utility of such machine. No item (other than Item No. 313) listed on the applicable Schedule shall be deemed an attachment.

(10) "Repair parts" means all types of replacement parts considered separately or as assemblies which are manufactured for use and used in the repair and maintenance of "farm machinery and equipment" and shall include plow shares and shapes, and water pump cylinders. No item listed on the applicable schedule shall be deemed a repair part.

(11) "Base production" means the weight of a producer's total manufacture in the United States of any item of farm machinery and equipment for sale in the United States during either the calendar year 1940 or 1941, in whichever year such weight was the greater.

(12) "United States" means the forty-eight states, the District of Columbia, Alaska, Hawaii, Puerto Rico, the Virgin Islands, and all other territories and possessions of the United States.

(13) "Current quota period" means the twelve-month period which starts July 1 of any year and ends June 30 of the following year, as identified on the applicable schedule.

(14) "Applicable schedule" means the particular schedule relating to a current quota period, and fixing manufacturing quotas (for sale in the United States) for each item listed for that period.

(c) Restrictions on production for domestic farm use—(1) Manufacturing quotas. During any current quota period, no producer shall manufacture, for sale in the United States, more of any item of farm machinery and equipment (by weight) than his quota for that item. This quota is figured by taking the percentage shown for the item on the applicable schedule, and multiplying it by his base production of the item. Exceptions to this general rule are stated in paragraph (d). Special restrictions are set forth in subparagraph (2) below and in paragraph (f).

(2) Special restrictions.

(i) The quota for items of farm machinery and equipment for any person who had no "base production" in 1940 or 1941 is limited to an aggregate value of not more than \$2,500 during any current quota period. This limit does not apply to repair parts or attachments under paragraphs (d) (1) and (d) (3), nor to any production under Direction 3 to this order, nor to any item which may be specifically removed from quota limitations.

(ii) No item which is not provided for in the applicable schedule shall be manufactured as "farm machinery and equipment" for sale in the United States.

(iii) No person shall manufacture for sale in the United States any item of farm machinery and equipment requiring rubber tires except the following items:

Wheel type tractors including garden type.
Combines.
Pick-up hay balers and field hay harvesters.
Corn pickers.
Power sprayers over ten gallons per minute.
Any item requiring tires to be mounted on wheel rims of the following sizes (diameter): 15", 16", 18", 20" and 21".

(iv) No producer who is not a "small producer" shall manufacture, for sale in the United States, any item of farm machinery and equipment or repair parts (or non-farm machinery and equipment) except to the extent listed on an approved production schedule under paragraph (e).

(3) Adjustments in quotas. The War Production Board may, by specific written directions or authorizations issued to any producer or other person affected by this order, increase or decrease any quota or authorized use of materials; and may transfer any portions of quotas between producers, taking into account the amount and weight of materials to be used, the need for particular items at the time required in particular areas, the labor and transportation situation in the manufacturing areas involved, and such other factors as may be proper.

(d) Exceptions—(1) No quota for repair parts. Producers may manufacture repair parts for sale in the United States without any restrictions as to quota. However, they must comply with paragraph (e) with respect to production schedules.

(2) Bracketed items. Wherever, in an applicable Schedule, two or more items

are bracketed together, the producer must apply the individual percentages to his base production of each item in the bracket and add up the various weights. This total permissible weight may then be distributed among all or any one or more of the items in that bracket as he chooses (regardless of the individual quota percentages).

(3) No quota restrictions on attachments. "Attachments" may be manufactured for sale in the United States without any restrictions as to quota. However, it is necessary to comply with paragraph (e) with respect to production schedules.

(4) Small producers. Any "small producer" may use the quota percentage "100%" instead of the quota percentage listed on any applicable schedule for any item or items which he makes, but only to the extent that the weight of his total manufacture of all items of farm machinery and equipment during the current quota period does not exceed, in the aggregate 100% of his base production of these items. In addition, small producers do not have to comply with certain provisions of this order with respect to production schedules or monthly reports, as stated in subparagraph (c) (2) (iv) and paragraphs (e) and (f). However, this does not relieve them from complying with all CMP Regulations and procedures.

(5) Production before or after current quota periods—(1) Advance planning of production. Before the beginning of any current quota period, producers may plan their production, order materials and start initial fabrication in accordance with the applicable schedule for the coming period. For this purpose, until such time as a new applicable schedule is issued, it may be assumed that the schedule currently in effect will apply for this next period. In other words, the schedule in effect is always the "applicable schedule" unless and until displaced by a new schedule.

(ii) Carry-over of uncompleted portions of quotas. Any portions of quotas for sale in the United States under an applicable schedule (including all amendments appeals and specific authorizations) which are not completely manufactured by the end of the current quota period, may be carried over and added to the corresponding quotas of the next current quota period but only to the extent that they can be completed by July 31 of this next period. However, uncompleted quotas (domestic, and those under Schedule B-6) under Order L-170 may be carried over as explained above for completion any time before June 30, 1944. In addition, uncompleted quotas for the following items of harvesting machinery and equipment under Schedule A (including special authorizations, etc.) may be carried over for completion any time before September 30, 1944:

Combines (Items 126 and 126a only).
Corn binders (Items 132 and 132a only).
Corn pickers (Items 133-136).
Field ensilage harvesters (Item 137).
Peanut pickers (Item 161).
Corn shellers (Items 168 and 167 only).
Hay balers (Items 172, 172a and 172b only).
Feed grinders and crushers (Items 174, 175, and 175a only).
Portable elevators (Item 183).

(6) Substitute materials. Any person may manufacture for sale in the United States the following items, without regard to the restrictions of this order, if they are made from the substitute materials listed:

Bee hives.
Farm gates.
Feed trucks.
Grit boxes.
Hog troughs.
Laying nests.
Livestock feeders.
Milk stools.
Poultry feeders.
Poultry waterers.

These items are unrestricted only if they are made entirely (except for nails and essential strappings and fastenings, and except for doors in the case of livestock feeders) from any one or more of the following materials:

Notes: List amended July 14, 1944.
Glass or other ceramic products.
Plain concrete.

Some of the items listed above are also given quotas on the applicable schedule. These quotas apply only to the extent that the items are to be made from iron or steel.

Notes: See Direction 3 to this order which removes quota restrictions under certain conditions.

(7) Substitution for critical materials encouraged. If the weight of any item of farm machinery and equipment manufactured by a producer has been or will be increased by his substituting for more critical materials any of the materials listed above in subparagraph (d) (6), he may still manufacture in any current quota period the number of units which would have been within his domestic quota before making the substitution. Also a producer may apply for additional quota for any item in which he can substitute these materials entirely for more critical materials.

(8) Assignments of quota. All assignments of quota specifically authorized by appeal under Limitation Order L-170 for the period starting November 1, 1942, or under this Order L-257, are re-authorized for each current quota period. The assignee, in figuring his additional quota, must take the percentage on the applicable schedule for each item transferred and multiply it by the assignor's base production of that item. The assignor's quota is, to that extent, revoked.

(e) Production schedules—(1) AA-2 for purpose of scheduling production. Producers and other persons authorized to manufacture under this order may schedule their production of items of farm machinery and equipment and repair parts as if the orders for these items bore a rating of AA-2.

(2) Production schedules must be filed: exemption for "small producers". With respect to each item of machinery and equipment (both farm and non-farm) and repair parts, each producer must file a production schedule on Form WPB-3181, listing the quantities he plans to have available for shipment (within his quota and other authorizations under this order) to various classes of customers, in accordance with the instructions on the form. This production

schedule is deemed approved as filed, unless the producer is notified in writing to the contrary by the War Production Board. "Small producers" do not have to file this form.

(3) *Items on approved schedule to be available for shipment; changes in schedule.* Each producer must have available for shipment each month to each class of customer the quantities of each item and of repair parts as indicated on his approved schedule. However, he may complete (within his approved total) more than his schedule in any month, except that, in the case of wheel-type tractors, a producer may not complete in any calendar quarter more tractors than the total shown on his approved schedule for that quarter, plus any approved amounts scheduled but not completed in previous quarters. He may also, if necessary, delay completion of any quantities scheduled for any class of customer for any month up to the last day of the next month. Any other change in an approved schedule must be reported on Form WPB-3181 and the change will be deemed approved as filed, unless the producer is notified in writing to the contrary by the War Production Board.

(4) *Deliveries for farm use protected.* A producer must deliver all quantities of items listed on an approved schedule (WPB-3181) for farm use and for export without regard to preference ratings, unless otherwise specifically directed in writing by the War Production Board. Small producers may deliver items for farm use and for export without regard to any orders bearing preference ratings of AA-2x or lower.

(f) *Further restrictions*—(1) [Deleted Mar. 23, 1944]

(2) *Restrictions on sale for domestic use.* Subject to such directions as may be issued from time to time as to rationing control by the War Food Administrator, no person shall sell any item of new farm machinery and equipment (except poultry equipment, horseshoes, muleshoes, oxenshoes, and harness hardware) which was manufactured for sale in the United States, and which he knows or has reason to believe will not be used in the hands of the ultimate consumer for farm use, except to fill a contract or purchase order bearing a preference rating of AA-4 or higher. If the rated order is for an item which farmers can get only by furnishing purchase certificates under Food Production Order 14 or any other applicable regulation of the War Food Administration, the seller must not fill the order from stock. However, in the following special cases, the seller may sell any of these items from stock for non-farm use on an order rated AA-4 or higher:

(i) If the item is in his stock as a replacement for one previously sold on a rated order, or.

(ii) After he has extended the rated order to his supplier and has actually received the particular item, or

(iii) If the rated order is placed with him directly by the Army or Navy (and not indirectly by a contractor or otherwise), or

(iv) If he is a producer (but producers must comply with all applicable orders

and regulations, particularly paragraph (e) (4) of this order).

(g) *Excess inventory.* Any producer may sell to any other producer any material in his inventory which is in excess of his requirements for the items of farm machinery and equipment and repair parts authorized to be manufactured under the provisions of this order. Such sales shall be expressly permitted within the terms of paragraph (c) (3), of Priorities Regulation No. 13.

(h) *Conservation of materials.* (1) If any other order of the War Production Board limits the use of critical materials in the manufacture of farm machinery and equipment, non-farm machinery and equipment, or repair parts to a greater extent than this order does, the other order shall govern unless it states otherwise.

(2) The War Production Board may also from time to time issue special orders requiring standardization, simplification, substitution, or other measures to save critical materials in the manufacture of farm machinery and equipment, non-farm machinery and equipment, or repair parts.

(i) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(k) *Reports.* Each producer who is not a "small producer" must file by the 10th day of each month a report on Form WPB-1768 of his production during the previous month in accordance with the accompanying instructions. The first report must be filed on or before September 10, 1943. In addition, if any serious production trouble or delay develops between dates of filing the above Form WPB-1768, the producer should immediately advise the War Production Board, including the following information where applicable:

(1) The name of any material or component part, the non-delivery of which is, or will be, materially retarding his production.

(2) The name of the manufacturer or supplier with whom the order was placed.

(3) Producer's purchase order number.

(4) Date of the order.

(5) Supplier's order number.

(6) Promised date of delivery.

"Small producers" and all other persons authorized to manufacture under this order who do not report monthly on Form WPB-1768, must file by August 10, 1944, a report on Form WPB-3808 of their production during the entire current quota period starting July 1, 1943.

This report should be filled out in accordance with the instructions on the form.

(l) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board, unless this order states otherwise.

(m) *Order L-170.* Except as otherwise stated in this order, it supersedes Limitation Order L-170 as of July 1, 1943.

(n) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Farm Machinery and Equipment Division, Washington 25, D. C. Ref: L-257.

NOTE: The reporting requirements in paragraphs (k), (c) (2) (iii), (e) (2) and (e) (3) have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 14th day of July 1944.

SCHEDULE A to L-257

APPLICABLE SCHEDULE FOR CURRENT QUOTA PERIOD
JULY 1, 1943 TO JUNE 30, 1944, INCLUSIVE

Manufacturing Quotas for Items of Farm Machinery and Equipment for Domestic Farm Use

Producers are not restricted by any quota percentage in the manufacture of repair parts.

Quotas for new machinery and equipment for farm use are expressed as a percentage of the net shipping weight of each item produced during 1940 or 1941, whichever was higher. In accordance with paragraph (d) (2), production of "bracketed items" may be distributed among all or any one or more items included in the particular bracket, so long as the total weight does not exceed that determined by applying the various quota percentages to the items in the particular bracket.

"Small producers" may use the quota percentage of 100% for any item or items they manufacture, so long as their aggregate production of all items does not exceed 100% of their total 1940 or 1941 production, whichever was higher, as provided in paragraph (d) (4).

Quotas for each item of attachments, unless election is made to lump together all attachments pursuant to paragraph (d) (3), are expressed as the same percentage as that listed for the machine with which the particular attachment is used (except engines).

Any item of farm machinery and equipment not provided for in this Schedule A is not to be manufactured for sale in the United States, unless specifically exempted under the order. Moreover, any manufacture of an item in excess of the percentages established in this Schedule A, even though it may be scheduled for production under paragraph (e), is permitted only if specifically authorized pursuant to paragraph (c) (3) or on appeal.

PART 1029—FARM MACHINERY

[Limitation Order L-257, Schedule B, as Amended July 14, 1944]

APPLICABLE SCHEDULE OF QUOTAS FOR FARM MACHINERY AND EQUIPMENT FOR DOMESTIC FARM USE FOR THE CURRENT QUOTA PERIOD JULY 1, 1944 TO JUNE 30, 1945

§ 1029.17 Schedule B to Limitation Order L-257. In accordance with the

provisions of Order L-257, this Schedule B is the "Applicable Schedule" for the current quota period July 1, 1944 to June 30, 1945. With a few minor changes, such as consolidations of certain items, it contains the same items and corresponding item numbers as shown on Schedule A. However, there have been important changes in the quota percentages for the new "current quota period", and also more liberal "bracketing" of many items is permitted.

The production quotas set forth in this Schedule B should be used by producers as the basis for planning their production, establishing production schedules and ordering material under CMP. The War Production Board may establish a final distribution pattern which is not in accord with these quotas. Any additional controls or exemptions which may be desirable with regard to production quotas, and any modifications with respect to final distribution of completed machines, will be issued as the need arises. In figuring his anticipated production, each producer must comply with the provisions of the basic Limitation Order L-257 and the explanatory notes to Schedule A, unless this Schedule B states otherwise.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Limitation Order L-123, as Amended July 14, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain critical materials (including components) and facilities used in the manufacture of general industrial equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.1 *General Limitation Order L-123*—(a) *Equipment which may not be delivered without an AA-5 or better rating.* No person (including a manufacturer, distributor, or dealer) shall accept any order for or deliver, and no person shall accept delivery of, any new item of the following equipment (more fully described in the attached List A) except for an order bearing a preference rating of AA-5 or higher:

1. Air filters.
2. Air washers.
3. Arc welding machines.
4. Baling presses.
5. Compressors.

6. Ceramic machinery and equipment.
7. Concrete products machinery.
8. Dust collectors, industrial.
9. Dynamometers (electric type) and rotary converters.
10. Electric motors and generators (fractional horsepower).
11. Fans, blowers and exhausters.
12. Flexible metallic hose, tubing and fittings.
13. Heat exchangers.
14. High pressure blowers.
15. Lifting magnets.
16. Oil filtering and re-refining machines.
17. Ovens, industrial; drying, curing and finish-baking types.
18. Paper shredders.
19. Pressure vessels (including air receivers).
20. Pumps.
21. Stationary steam engines.
22. Wire working machinery.
23. Insulation blowing machines.
24. Electroplating and anodizing equipment.

Deliveries within a company. The above restriction applies to deliveries from one department (a branch, division, or section) of a single organization to another department of the same organization when the item is for incorporation into other machinery produced by that organization, or when it is for installation and operation for the organization's own use.

The restriction does not apply to deliveries from one department to another of the same organization, of items which it is to resell as such.

(b) *Certain transactions for which, no rating is required by this order.* The above restriction does not apply to the following transactions:

(1) *Repair parts.* Delivery of repair parts for any item (but no complete item may be considered as a repair part and delivered under this exemption, even though it could be used as a component part of another item or of machinery not covered by this order).

(2) *Farm supplies.* When items which are farm supplies under Priorities Regulation 19 are delivered to a farmer or dealer upon a certificate in accordance with that regulation.

(3) *Petroleum industry item.* When items used in the petroleum industry and covered by Order P-93-c are delivered in accordance with that order.

(4) *Items no longer needed.* When an item is returned to the person from whom it was obtained, or when it can no longer be used for the purpose for which priorities assistance was given to help obtain it and the holder disposes of it in accordance with applicable provisions of Priorities Regulations 1 or 13.

(5) *Items ordered and put in transit before the restriction became applicable.* The completion of delivery of items which had been placed in the hands of a common or contract carrier for shipment to the customer prior to the date upon which the restriction in (a) became applicable.

(6) *Certain orders rated below AA-5 but unfilled when restriction became applicable.* Delivery to fill any rated order which was rated below AA-5 and could have been filled just before the

date upon which the restriction in (a) became applicable without violating any WPB order, rule or regulation.

(7) *Deliveries of machinery not covered by this order.* The delivery of new machinery, not covered by this order, into which an item has been incorporated as a necessary component part (or which is delivered in unassembled condition with an item which is a necessary component part, for assembly at the site of installation).

(8) *Used items.* The delivery of any item which has been sold to a person acquiring it for use, and put into regular use by him.

(9) *Specific authorizations.* Deliveries specifically authorized or directed by the War Production Board.

(10) *The replacement of a fractional horsepower electric motor or generator which is traded-in when repair is needed.* When a fractional horsepower electric motor or generator is delivered to a householder or other user solely for replacement of a used one which needs repair and the seller, in accordance with his regular business practice, takes the broken down or defective motor or generator in trade and repairs it or delivers it to another person who will repair it (whenever repair is practicable) so that it will be resold under similar conditions (or scraps it promptly when repair is impracticable).

(It must be noted that no repairman or other person may deliver such an item unless he either complies with the foregoing conditions, or receives a AA-5 or higher rating for the delivery from his customer, even though he has obtained the items under a regulation or order which assigns a rating for repair or maintenance purposes, such as the following: CMP Regulations 5, 5A, or 9A; or Orders L-79, P-126, or P-148.)

This exemption permits a dealer not having repair facilities to deliver such a traded-in motor or generator, if it is repairable, to the manufacturer or some other supplier who will repair it or have it repaired within a reasonable time, and get one in exchange without a AA-5 or higher rating. The manufacturer or other supplier who is asked to deliver a new item to a dealer in exchange for a used one is responsible for determining if the traded-in item is repairable.

(11) *Portable air compressors owned and used in a rental business.* When portable air compressors owned by a person engaged in the business of renting them, are leased by the owner. This exemption does not apply to the sale of a new item by such owner, or to the original purchase of the items by him.

(12) *Delivery to a consumer of an item for plumbing or heating repair.* When an item is delivered to a consumer for plumbing or heating repair upon a certificate from the latter in accordance with Order L-79.

(13) *Deliveries of replacement parts for motor vehicles.* When replacement parts for motor vehicles are delivered to any person in accordance with Order L-158.

(c) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as issued and amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter, in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal. The letter should be filed with the field office of the War Production Board in the district in which is located the plant or branch of the appellant to which the appeal relates.

(4) *Communications.* All reports required to be filed hereunder, and all communications (except appeals) concerning this order, shall, unless otherwise directed, be addressed to the War Production Board, General Industrial Equipment Division, Washington 25, D. C. Ref. L-123.

Issued this 14th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A

Under paragraph (a) of the order, a rating of AA-5 or better is required for delivery of a new item of equipment in any class described below. Exceptions to this rule are listed in paragraph (b). "Item" means any new piece of equipment. Where a class description covers an item sometimes sold with a motor or other driving unit and sometimes without, in either case the item is subject to the restrictions of the order.

Component parts for the repair or manufacture of an item are not subject to the order as items in that class. However, if a particular part is itself within some other class as described below, then it is subject to the order.

1. *Air filters.* Any equipment or device designed to filter or strain air or other gaseous matter for the purpose of removing dust or other particles of material or odors. Excluded are types using a non-metallic filtering medium, commonly known as the "throw-away" or "replaceable" types.

2. *Air washers.* Any equipment or device designed to wash air, including spray washers and scrubbers.

3. *Arc welding machines.* Any machine or device designed to use, transform, or generate electricity (either direct or alternating current) for the deposit of metal by the electric arc process. Excluded are: Welding cable, electrode holders and arc welding electrodes.

4. *Baling presses.* Any machine or device designed to compress bulky materials into compact bundles or bales. Included are types for handling ferrous and non-ferrous scrap, paper, rubber, textiles, or miscellaneous waste materials. Excluded are balers

which are farm machinery and equipment covered by Orders L-257 or L-257-a.

5. *Compressors.* Any portable or stationary machine or apparatus of the reciprocating type, designed to compress or exhaust air or other gas. PART 1364—FRESH, CURED AND CANNED

[RMPR 156]

CANNED MEAT

Maximum Price Regulation No. 156 is redesignated Revised Maximum Price Regulation No. 156 and is revised and amended as set forth herein.

A statement of the considerations involved in the issuance of this Revised Maximum Price Regulation No. 156 has been issued simultaneously herewith and filed with the Division of the Federal Register.*

So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation. In the judgment of the Price Administrator, the maximum prices established by this revised maximum price regulation are and will be generally fair and equitable, and comply with the requirements of Section 3 and the other requirements of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, and will effectuate the purposes of said Act and Executive Orders.

Insofar as this regulation uses specifications and standards which were not, prior to such use, in general use in the trade or industry affected, or insofar as their use was not lawfully required by another Government agency, the Administrator has determined, with respect to such standardization, that no practicable alternative exists for securing effective price control with respect to the commodities subject to this regulation.

§ 1364.356 *Maximum prices for canned meat.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, Executive Orders Nos. 9250 and 9238, Revised Maximum Price Regulation No. 156 (Canned meat), which is annexed

hereto and made a part hereof, is hereby issued.

"Person" as used in this regulation means any individual, corporation, partnership, association or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing: *Provided*, That no punishment provided by this regulation shall apply to the United States or to any such government, political subdivision or agency.

(b) *Prohibition against indirect evasion of the price limitations or other provisions of this regulation.* No person shall evade directly or indirectly the price limitations or other provisions of this regulation.

No person shall require a purchaser to buy any other product as a condition of selling the purchaser canned meat.

No payments, commissions or allowances shall be made by the buyer or received by the seller for any service or charge not provided for in this regulation.

Without being considered an evasion of the price limitations of this regulation, a change may be made in the formula of a canned meat product not priced under section 11 (a) or (b) which varies the amounts of particular meat ingredients without changing the total quantity of meat ingredients or adding a new meat ingredient: *Provided*, That a change in formula is made necessary by the unavailability of a sufficient quantity of a particular meat ingredient and that the order of predominance by weight of the meat ingredients is not changed and the amount of any meat ingredient is not changed by more than 10 percent in a sterile canned meat product or more than 5 percent in a semi-sterile canned meat product.

The change in the formula of a canned meat product permitted by the preceding paragraph does not refer to a change in a new formula permitted to be established by the preceding paragraph.

(c) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(d) *Penalties for violating provisions of this regulation.* On and after the effective date of this regulation, any person violating any provision of this regulation is subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

SEC. 4. *Petitions for amendment.* Any person seeking an amendment of any provision of this Revised Maximum Price Regulation No. 156 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

SEC. 5. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the ceiling price in effect at the time of delivery; but no person may, unless authorized by the Price Administrator, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Price Administrator after delivery. Such authorization may be given when a request for a change in the applicable ceiling price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

SEC. 6. *Records, reports and notification—(a) Current records.* On and after the effective date of this regulation every person making a sale of canned meat subject to this regulation, and every person making a purchase in the course of trade or business of canned meat subject to this regulation, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a record of each such sale or purchase, showing the date thereof, the name and address of the seller and buyer, the description, including size of glass or tin container, and the quantity of canned meat sold or purchased and the price charged and received or paid therefor.

(b) *Future records and reports.* Such person shall, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, submit such reports to the Office of Price Administration and keep such other records in addition to, or in place of, the records required in paragraph (a) of this section, as the Office of Price Administration may from time to time require.

(c) *Notification to buyers of new ceiling prices.* With the first delivery of each brand, type and container size of canned meat priced under this regulation, the seller shall supply each wholesaler and retailer who purchases from him with a written notice of the following form:

(Insert date)

NOTICE TO WHOLESALERS AND RETAILERS

Our OPA ceiling price for (describe item by brand, type and container size) has been changed by the Office of Price Administration. We are required to inform you that if you are a wholesaler or retailer pricing this item under Maximum Price Regulation No. 421, 422 or 423, you must refigure your ceiling price for this item pursuant to section 6 of Maximum Price Regulation No. 421, 422 or 423, whichever is applicable to you. You must refigure your ceiling price on the first delivery of this item to you containing this notification.

For a period of 60 days after first determining his ceiling price under this regulation, and with the first shipment after the 60-day period to each person who has not made a purchase within that time, the seller shall supply the written notice set forth above by attaching it to, or stating it on, the invoice covering the shipment.

ARTICLE II—SPECIAL PROVISIONS FOR STERILE CANNED MEAT

SEC. 7. *Ceiling prices of sterile canned meat—(a) Ceiling prices of sterile canned meat to be determined in accordance with provisions of this section.* Ceiling prices of sterile canned meat shall be computed as provided in this section.

"Sterile canned meat" means canned meat which has been commercially sterilized and packed in a hermetically sealed container and needs no refrigeration while remaining in the sealed container.

(b) *Computation of ceiling prices of sterile canned meat.* The ceiling prices for each brand, type and container size of sterile canned meat shall be computed as follows:

(1) A person making sales or deliveries of sterile canned meat subject to this regulation shall first figure a weighted average of all his ceiling prices for each brand, type and container size of sterile canned meat in effect immediately preceding the effective date of this regulation. The "weighted average price" for each item shall be figured for each price zone customarily used by such person or for each price zone as defined in section 13 (a), at such person's option.

The "weighted average price" for each item in each price zone shall be figured as follows:

(i) In each zone such person shall figure the total volume of sales or deliveries of such item at each sales outlet during January, 1942, or February, 1942 if no sales or deliveries of the particular item at a particular outlet were made in January, 1942, and then add together the volumes of sales of each such item during the period specified to find the total volume of sales of each item during such period in each zone.

Example: In Zone 1, if a person sold during January, 1942, 24 dozen of 4 oz. S. C. Vienna sausage at Sioux City, Iowa, 43 dozen at Indianapolis, Indiana, and 36 dozen at Columbus, Ohio, his volume of sales of this item would be 72 pounds at Sioux City, Iowa, 144 pounds at Indianapolis, Indiana, and 103 pounds at Columbus, Ohio. These sums added together give 324 pounds or 103 dozen cans as the total volume of sales of Vienna sausage in Zone 1.

(ii) In each zone, by using the ceiling prices in effect immediately preceding the effective date of this regulation, such person shall figure the ceiling price value of the total volume of sales or deliveries of each item at each sales outlet as found by following subdivision (i) above, and then add together the ceiling price values for the volumes of sales of each such item to find the total ceiling price value of the total volume of sales or deliveries of each item in each zone as found by following paragraph (i) above.

Example: In Zone 1, if a person's ceiling price in effect immediately preceding the effective date of this regulation for 4 oz. S. C. Vienna sausage at Sioux City, Iowa, is \$1.40 per dozen cans; at Indianapolis, Indiana, \$1.35 per dozen cans; and at Columbus, Ohio, \$1.30 per dozen cans, his ceiling price value for 24 dozen cans or 72 pounds at Sioux City, Iowa, would be \$33.60, his ceiling price value for 43 dozen cans or 144 pounds at Indianapolis, Indiana, would be \$58.20, and his ceiling price value for 36 dozen cans or 103 pounds at Columbus, Ohio, would be \$46.80.

These sums added together give \$145.20 as the ceiling price value for 324 pounds or 108 dozen cans of 4 oz. S. C. Vienna sausage in Zone 1.

(iii) Such person shall divide the total ceiling price value for the total volume of sales or deliveries of each item for each zone as found by following subdivision (ii) above by the total volume of sales or deliveries of such item for such zone as found by following subdivision (i) above. The result will give a "weighted average price" for each item in each zone. The "weighted average price" shall be rounded to the nearest $\frac{1}{2}$ cent per dozen basis or to the nearest 25 cents per hundredweight basis.

Example: Using the results found in the examples under subdivisions (i) and (ii) above, \$145.20, the total ceiling price value, divided by 108 (dozen cans) or 324 (pounds), the volume of sales, gives \$1.3450 (\$1.3444) as the "weighted average price" per dozen cans of 4 oz. S. C. Vienna sausage or \$0.4475 (\$0.4481) as the "weighted average price" per pound in Zone 1.

(2) (i) The "weighted average price" in each zone for each brand, type and container size of sterile canned meat heretofore priced under Revised Maximum Price Regulation No. 169 shall be the ceiling price under this regulation for such brand, type and container size of sterile canned meat at the delivery point in such zone: *Provided*, That a person making sales or deliveries of such sterile canned meat subject to this regulation shall continue to allow all the deductions or discounts which were customary during the 90-day period prior to March 9, 1942.

The canned meat products referred to in this paragraph (b) (2) (i) of section 7 consist of all-beef canned meat products and sausage containing any proportion of beef and veal, the original ceiling prices of which under Revised Maximum Price Regulation No. 169 were reduced pursuant to § 1364.476 (1) which was added by Amendment No. 15 to that regulation.

(ii) The "weighted average price" in each zone for each brand, type and container size of corned beef hash and chili con carne (with or without beans) shall be the ceiling price under this regulation for such brand, type and container size of such sterile canned meat at the delivery point in such zone: *Provided*, That a person making sales or deliveries of such sterile canned meat subject to this regulation shall continue to allow all the deductions or discounts which were customary during the 90-day period prior to March 9, 1942.

(3) For each brand, type and container size of sterile canned meat other than that priced under paragraph (b) (2) of this section 7, a person making sales or deliveries of such sterile canned meat subject to this regulation

(i) Shall take the "weighted average price" for each zone as determined under paragraph (b) (1) (iii) of this section and determine the weighted average price for 100 pounds of such product.

Example: Using the result in the example under paragraph (b) (1) (iii) of this section, the "weighted average price" of \$1.3450 per dozen cans of 4 oz. S. C. Vienna sausage or \$0.4475 per pound will give a "weighted

average price" of \$44.75 for 100 pounds of this product.

(ii) Shall determine the amount of each meat ingredient not including variety meats and edible by-products described in Maximum Price Regulation No. 398, contained in 100 pounds of such finished product.

Example: Taking the formula for the S. C. Vienna sausage used in the examples above, assume that 60 pounds of cutter and canner boneless processing beef and 40 pounds of regular pork trimmings are contained in 100 pounds of such Vienna sausage.

(iii) Shall determine the cost of each meat ingredient, not including variety meats and edible by-products described in Maximum Price Regulation No. 398, contained in 100 pounds of such finished product. The cost of pork shall be considered to be the applicable price or prices listed in Schedule I of § 1364.35 of Revised Maximum Price Regulation No. 148 as established by Amendment No. 5 to that regulation. The cost of beef and veal shall be considered to be the applicable Zone 4 price or prices listed in § 1364.452, Schedule I, and § 1364.467, Schedule IV, respectively of Revised Maximum Price Regulation No. 169 as established by Amendment No. 15 to that regulation. The cost of lamb and mutton shall be considered to be the applicable price or prices listed in § 1364.177, Appendix B of Revised Maximum Price Regulation No. 239 as established by Amendment No. 4 to that regulation.

Example: Using the result obtained in the example under subdivision (ii) above, the cost of 60 pounds of cutter and canner boneless processing beef would be \$9.90. This sum is obtained by taking the Zone 4 price of cutter and canner boneless processing beef in § 1364.452, Schedule I, of Revised Maximum Price Regulation No. 169 as established by Amendment No. 15, which is \$16.50 per hundredweight. This price per hundredweight makes \$0.1650 as the price per pound. This figure multiplied by 60 gives \$9.90 as the cost of 60 pounds. The cost of 40 pounds of regular pork trimmings would be \$7.20. This sum is obtained by taking the price of regular pork trimmings in Schedule I of § 1364.35 of Revised Maximum Price Regulation No. 148 as established by Amendment No. 5, which is \$18.00 per hundredweight. This price per hundredweight makes \$0.1800 as the price per pound. This figure multiplied by 40 gives \$7.20 as the cost of 40 pounds.

(iv) Shall compute an amount which is 10 percent of the total cost of the meat ingredients determined under subdivision (iii) above.

Example: The total cost of the meat ingredients of S. C. Vienna sausage determined under subdivision (iii) above is \$9.90 plus \$7.20 which gives \$17.10. 10 percent of \$17.10 is \$1.71.

(v) Shall subtract from the figure obtained in subdivision (i) above the figure obtained in subdivision (iv) above, and use the result to determine the "adjusted weighted average price" for the unit of weight of the sterile canned meat product started with in making the computation in subdivision (i) above. The "adjusted weighted average price" shall be rounded to the nearest $\frac{1}{2}$ cent per dozen basis or to the nearest 25 cents per hundredweight basis.

Example: The figure obtained in the example under subdivision (i) above is \$44.75. The figure obtained in the example under subdivision (iv) above is \$1.71. The latter figure is subtracted from the former which gives \$43.04. Rounding this figure to the nearest 25 cents gives \$43.00, the "adjusted weighted average price" for 100 pounds of S. C. Vienna sausage in Zone 1. The "adjusted weighted average price" per pound would be \$0.4300. The "adjusted weighted average price" for three pounds or 1 dozen 4 oz. cans would be 3 times \$0.4300 which gives \$1.2900. The "adjusted weighted average price" per dozen cans of 4 oz. S. C. Vienna sausage in Zone 1 is \$1.2900.

(4) The "adjusted weighted average price" in each zone for each brand, type and container size of sterile canned meat other than that priced under paragraph (b) (2) of this section shall be the ceiling price under this regulation for such brand, type and container size of sterile canned meat at the delivery point in such zone: *Provided*, That a person making sales or deliveries of such sterile canned meat subject to this regulation shall continue to allow all the deductions or discounts which were customary during the 90-day period prior to March 9, 1942.

Sec. 8. Filing of ceiling prices of sterile canned meat; prohibition against selling or delivering sterile canned meat without filing of ceiling prices; ceiling prices for sterile canned meat carrying a new brand name—(a) *Filing of ceiling prices of sterile canned meat.* Not later than seven days after the effective date of this regulation each person making sales or deliveries of sterile canned meat subject to this regulation shall file with the Office of Price Administration of Washington, D. C., stating that the requested ceiling price is being used pursuant to this paragraph. Prior to such written authorization of a ceiling price or prior to 30 days after receipt by the Office of Price Administration of the application, whichever is sooner, the applicant shall not sell or deliver any sterile canned meat priced under this section 9.

SEC. 10. *Adjustment of ceiling prices—(a) Adjustment of ceiling prices on the initiative of the Price Administrator.* The ceiling prices determined under section 7, 8 or 9 shall be subject to adjustment at any time by the Price Administrator.

(b) *Applications for price adjustments—(1) Who may apply.* Any person subject to this regulation may apply for an increase in his ceiling price of a brand, type and container size of sterile canned meat if his ceiling price (minus transportation costs) under this regulation for such brand type and container size of sterile canned meat is below his total factory costs for such sterile canned meat product.

(2) *Terms of an adjustment.* A price increase under this paragraph (b) will be granted sufficient to cover the total factory costs for such sterile canned meat product: *Provided*, That the ceiling price or prices of some other sterile canned meat product or products of the applicant, produced in substantially the same quantity, shall be reduced in an amount which will equal the amount of the adjustment under this paragraph.

SEC. 11. *Ceiling prices of semi-sterile canned meat—(a) Ceiling prices on deliveries to persons other than retailers of semi-sterile canned meat products given dollar-and-cents prices.* The ceiling price for a delivery to a person other than a retailer of a semi-sterile canned meat product meeting the specifications for such product established by section 13 (b) shall be determined by

(1) Adding to the base price specified for such product in section 12 (a) the zone addition specified in section 12 (b) for a carload delivery, or less-than-carload delivery, whichever is made, for the zone in which actual physical possession of the product is taken by the buyer, and then

(b) *Ceiling prices on deliveries to retailers of semi-sterile canned meat products given dollar-and-cents prices.* The ceiling price for a delivery to a retailer of a semi-sterile canned meat product meeting the specifications for such product established by section 13 (b) shall be determined by:

(1) Adding to the base price specified for such product in section 12 (a) the zone addition specified in section 12 (b) for a carload delivery, or less-than-carload delivery, whichever is made, for the zone in which actual physical possession of the product is taken by the buyer, and then

¹ Filed as part of the original document.

(2) Subtracting from the figure obtained by following paragraph (b) (1) above 25 cents per hundredweight if delivery of the product is not made to the buyer at the buyer's place of business, and then

(3) Adding to the figure obtained by following paragraphs (b) (1) and (b) (2) above, 6 percent of such figure.

(c) *Permitted sales.* All sales under section 11 (a) or (b) shall be delivered sales to the buyer's place of business, except that a sale may be made involving delivery of the product to the buyer at the seller's place of business for transportation in a truck, owned or controlled by the buyer, to the buyer's place of business located in the same zone as the seller's place of business. In the latter type of sale the 25 cents per hundredweight deduction shall be applicable.

(d) *Ceiling prices of semi-sterile canned meat products not given dollar-and-cents prices.* (1) If a person makes a delivery of a semi-sterile canned meat product, other than canned whole ham, which does not meet the minimum specifications of one of the semi-sterile canned meat products set out in section 13 (b), his ceiling price for such delivery shall be determined in accordance with the provisions of section 7, substituting for the purpose of this paragraph (d) (1) the term "semi-sterile canned meat" whenever the term "sterile canned meat" is used in section 7, exclusive of the definition of "sterile canned meat" contained therein.

Semi-sterile canned meat products priced under this section 11 (d) refer to canned meat products which are different from, as well as those which are similar to, the canned meat products described in section 13 (b).

(2) The provisions of sections 8, 9 and 10 shall also be applicable to a product priced under this section 11 (d), substituting for the purposes of this paragraph (d) (2) the term "semi-sterile canned meat" whenever the term "sterile canned meat" is used in sections 8, 9 and 10.

(3) Notwithstanding any other provisions of section 11 (d) the ceiling price of a semi-sterile canned meat product priced under section 11 (d) shall not exceed the ceiling price to the same class of purchasers in the same delivery area of the same general kind of semi-sterile canned meat product priced pursuant to section 11 (a) or (b). (For example, the ceiling price of "spiced luncheon meat" determined under section 11 (d) may not exceed the ceiling price to the same class of purchasers in the same delivery area of "spiced luncheon meat" described in section 13 (b) (4) and priced pursuant to the provisions of section 11 (a) or (b)).

(4) No canned whole ham shall be manufactured for sale, offered for sale, sold or delivered or bought in the course of trade or business, unless such canned ham meets the requirements of canned whole ham as set out in section 13 (b) (2) or section 13 (b) (3).

PUBLIC SERVICE ELECTRIC AND GAS CO.

ORDER FOR HEARING

JULY 12, 1944.

Upon consideration of the reclassification and original cost studies of Public Service Electric and Gas Company filed on March 18, 1940 and April 30, 1942; the "Report on the Reclassification and Original Cost Studies of Electric Plant as at January 1, 1938" made by the staff of this Commission and served upon Public Service Electric and Gas Company with the order of this Commission dated November 2, 1943; the response thereto by Public Service Electric and Gas Company filed on February 26, 1944; and other related information on file with this Commission;

It appears to the Commission that:

(b) It is advisable, necessary and proper in the public interest that a public hearing be held for the purpose of requiring Public Service Electric and Gas Company to show cause why this Commission should not order the adjustment of the Company's accounts to conform with the above-mentioned "Report on the

Reclassification and Original Cost Studies of Electric Plant, as at January 1, 1938" and dispose of the amounts therein classified in the adjustment accounts;

The Commission, therefore, orders that:

(A) A public hearing be held on September 18, 1944, at 10:00 a. m. (e. v. t.) in the hearing room of the Board of Public Utility Commissioners of New Jersey, 1060 Broad Street, Newark, New Jersey, and at the hearing Public Service Electric and Gas Company show cause why the Federal Power Commission should not find and determine by order that adjusting entries be made to bring its books of account in conformity with the "Report on the Reclassification and Original Cost Studies of Electric Plant as at January 1, 1938" and dispose of the amounts therein classified in Accounts 100.5, Electric Plant Acquisition Adjustments; 107, Electric Plant Adjustments; 108.15, Common Utility Plant Acquisition Adjustments; and 108.17, Common Utility Plant Adjustments;

(B) The Board of Public Utility Commissioners of New Jersey may participate in the hearing as provided in Part 39, § 39.4 of this Commission's rules of practice and Regulations prescribed pursuant to the provisions of the Federal Power Act.

[RO 17, Administrative Exception Order 24]
WEIGERT-DAGEN, WOHL SHOE CO. AND L. GOLDMAN SHOE CO.

ORDER GRANTING ADJUSTMENT

The above petitioners, Weigert-Dagen, Wohl Shoe Company and L. Goldman Shoe Company, are duly registered distributing establishments under Ration Order 17. Weigert-Dagen and Wohl Shoe Company are both located in St. Louis, Missouri. L. Goldman Shoe Company is located in Denver, Colorado.

Under Ration Order 17 huaraches not released by the Collector of Customs be-

fore June 1, 1943, must be sold as rationed shoes. The petitioners imported approximately 15,000 pairs of huaraches into the United States from Mexico prior to June 1, 1943, but were unable to have them released by the Collector of Customs before that date and as a result these huaraches are rationed. Petitioners have tried to sell the huaraches for ration currency but are unable to do so as consumers are unwilling to surrender a war ration shoe stamp for this type of shoe. The petitioners, in order to avoid a severe financial loss, request permission to sell the huaraches ration-free.

The date of release by the Collector of Customs was selected because it is an objective cut-off date. Since the date the huaraches were imported into the United States will be just as effective in determining their ration status, the relief requested in this case may be granted in this and all similar cases without impairing the effectiveness or the policy of Ration Order 17.

It is hereby ordered, That the petitioners, Weigert-Dagen, Wohl Shoe Company and L. Goldman Shoe Company, be permitted to transfer ration-free the Mexican huaraches that were imported into the United States prior to June 1, 1943. Before transferring any of the above described huaraches ration-free, the petitioners must apply to the District Office serving the locality in which they are located for a supply of non-rationed stickers (Form R-1711). At the time application is made to the District Office, the applicant must also furnish proof, such as reference to customs entries or other evidence, which will satisfy the District Office that the huaraches to be transferred ration-free were imported into the United States prior to June 1, 1943. If the District Office approves the application, it shall issue to the applicant non-rationed stickers in an amount equal to the number of pairs of huaraches to be transferred ration-free. The applicant shall attach one non-rationed sticker to each pair of huaraches to be transferred ration-free. The huaraches may then be transferred ration-free. If such huaraches are offered for sale in any notice or advertisement, they shall be referred to as "Huaraches imported before June 1, 1943." Any unused stickers shall be returned to the District Office within 30 days after receipt of them by the applicant.

It is hereby further ordered, That any other persons similarly situated may be given the same relief on similar conditions upon application to and written authorization from the Director of the Miscellaneous Products Rationing Division, Office of Price Administration, Washington, D. C.

Issued and effective this 14th day of July 1944.

CHARLES F. PHILLIPS,
Deputy Administrator.

(4) *Provided, however,* That in no event shall the total of all handling charges, exclusive of standardization, pasteurization, and transportation charges hereinafter set forth, exceed 60¢ per cwt. for milk delivered into containers of a capacity greater than 10 gallons including tank trucks or tank cars, and 65¢ per cwt. for milk delivered into containers of 10 gallons capacity or less, nor shall the maximum price, exclusive of such charges, for any fluid milk sold by either a primary or secondary handler, exceed the following:

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 31-388 and 31-446]

DETROIT EDISON Co.

ORDER REOPENING RECORD AND RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of July, A. D. 1944.

The Commission having on August 5, 1940 entered an order under section 2 (a) (8) of the Public Utility Holding Company Act of 1935 denying an application by The Detroit Edison Company to be declared not to be a subsidiary of The North American Company, but granting the application of The Detroit Edison Company to be declared not to be a subsidiary of American Light & Traction Company and its parents, The United Light and Power Company and The United Light and Railways Company, all registered holding companies, on the basis of a satisfactory showing by the applicant that American Light & Traction Company, The United Light and Power Company and The United Light and Railways Company had failed to obtain representation on its board of directors and had not participated in its corporate or operating affairs, and that, in general, the applicant was not at the time controlled and its management and policies were not subject to a controlling influence, directly or indirectly, by American Light & Traction Company, The United Light and Power Company or The United Light and Railways Company; and

It appearing from the Commission's public official files that The North American Company has disposed of substantially all of its stock interest in The Detroit Edison Company, thereby reducing its ownership from 19.28% to approximately .1% of such company's voting securities, that American Light & Traction Company is the largest single stockholder of The Detroit Edison Company, owning beneficially 20.27% of its voting securities, and that on February 14, 1944, two nominees who are officers and directors of American Light & Traction Company, The United Light and Power Company and The United Light and Railways Company were designated for election to the board of directors of The Detroit Edison Company and were elected thereto at the request of American Light & Traction Company; and

It therefore appearing to the Commission that there has been a sufficient change of circumstances to make it necessary and appropriate that the record in this matter be reopened and that the hearing therein be reconvened for the purpose of adducing additional evidence so as to enable the Commission to determine whether The Detroit Edison Company is now controlled or its management and policies are now subject to a controlling influence, directly or indirectly, by American Light & Traction Company, The United Light and Power Company or The United Light and Rail-

ways Company (either alone or pursuant to an arrangement or understanding with one or more other persons) so as to make it necessary or appropriate in the public interest or for the protection of investors or consumers that The Detroit Edison Company be subject to the obligations, duties and liabilities imposed by the Act upon subsidiary companies of registered holding companies and whether the Commission's previous order granting the application of The Detroit Edison Company with respect to American Light & Traction Company, The United Light and Power Company and The United Light and Railways Company should be revoked;

It is ordered, That the record in this matter be reopened and that the hearing therein be reconvened on August 22, 1944 at 10:00 a. m., E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as the hearing room clerk will at that time designate. At such hearing cause shall be shown why the order of the Commission dated August 5, 1940, granting the application by The Detroit Edison Company with respect to American Light & Traction Company, The United Light and Power Company, and The United Light and Railways Company should not be revoked;

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice;

It is further ordered, That notice of this hearing be given to The Detroit Edison Company, American Light & Traction Company, The United Light and Power Company, and The United Light and Railways Company by registered mail, and to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication in the FEDERAL REGISTER. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall notify the Commission, in the manner prescribed by Rule XVII of its rules of practice, on or before August 18, 1944.

By the Commission.

Distribution of total payments among producers, including cooperative associations of producers, shipping milk to the handler shall be made equitably among all such producers, but such distribution may reflect not more than customary differentials between producers who are members of cooperative associations (including such associations themselves), and producers who are not members of such associations, and the total amount paid by the handler to all producers for all milk received from them shall be at least equal to the product of the quantity of all milk received from producers by such handler multiplied by the prices specified in this section.

This offer may be partially or wholly revoked or modified by publication of a notice thereof in the FEDERAL REGISTER by Commodity at any time but, notwithstanding any such revocation or modification, settlement shall be made as provided in section 2 hereof with respect to any milk disposed of pursuant to the terms and conditions hereof prior to such revocation or modification.

¹ "Shipping point" means the place in or near the producing area where the kind of vegetable being priced is prepared for shipment and first loaded on cars for rail shipment or on trucks for truck shipment. Prices established for shipping points are not grower ceiling prices unless the grower is the shipper.

The prices named include all costs of harvesting, hauling, packing and inspection, and no additional charge may be made for containers or for any other materials furnished or services rendered. For sales in bulk the prices will be 1 cent less per pound than the named prices.

No person who does not pack and ship the kind of vegetable being priced and who does not regularly operate a packing and shipping plant for that commodity, will be permitted to purchase acreage at a price which, after the cost of harvesting, hauling, packing and inspection, have been added, results in a price higher than the maximum price, f. o. b. shipping point.

The above prices will be incorporated in an amendment to Maximum Price Regulation No. 426 having substantially the same form as Amendment 18, except that for each major producing area of each commodity a maximum price for f. o. b. sales will be provided. These f. o. b. prices will reflect the freight advantage which the respective producing areas have over the basing points listed. In no case will the f. o. b. price be lower than the applicable basing point price. As in Amendment 18, maximum prices for sales delivered to wholesale receiving points will be the applicable basing point

price plus freight from the basing point and protective services.

Where two basing points are listed for one period, the eastern basing point will be applicable for sales in the eastern part of the country and the western basing point will be applicable for sales in the western part. The line will be drawn North and South at Chicago or Denver or whatever point is indicated by the relative volume of eastern and western supplies and the normal distribution of the commodity.

Issued this 14th day of July 1944.

JAMES G. ROGERS, Jr.,
Acting Administrator.

For the reasons which will be set forth in the statement of considerations accompanying the amendment to Maximum Price Regulation 426 which will establish the prices specified in the foregoing notice, I hereby approve the proposed prices for lima beans, cauliflower, celery and tomatoes, and find that they are necessary to aid in the effective prosecution of the war.

FRED M. VINSON,
Economic Stabilization Director.
